

FE535

Door Holder, Steel Square Base, VDS Magnet

General

The FE535 is a VdS approved magnetic door holder with a steel, square base.

A magnet for all occasions

The 500 series door holding magnets are the result of years of specialised development. With low power consumption the magnets are still able to produce very high holding forces. All magnets have a spring-loaded pin to ensure ejection against remnant magnetism.

Application friendly

This square steel base model offers a cost effective solution without sacrificing performance. The FE535 is supplied without keeper plate. This may be ordered separately depending on the application.

Installer friendly

For practical ease of installation, all units are complete with electrical termination. Protection diodes prevent electromagnetic pulses, and reverse polarity protection speeds up installation. The boxes are predrilled in a practical, standard format for rapid mounting.

Approvals

All models are VdS approved. (Refer to the specific device specifications)

Standard Features

- Wall mount
- Low power
- 490 N holding power
- 100% duty cycle
- Anti-remnant ejector
- Protection diode and reverse polarity protection
- VdS approved

FE535

Door Holder, Steel Square Base, VDS Magnet

Specifications

Electrical	
Power supply type	24 VDC
Power consumption	1.5 W
Current consumption	62.5 mA
General	
Holding force N (Newton)	490
Release button	No
Reverse polarity protection	Yes (diode)
Physical	
Physical dimensions	50 x 30 mm (Ø x H)
Cable entries	1
Environmental	
IP rating	IP30
VDS Coil	
	Yes

Ordering Information

Part No.	Description
FE535	Door Holder, Steel Square Base, VDS Magnet
FE527	Standard Anchorplate for FE500 Series Magnets
FE529	Swivel Anchorplate for FE500 Series Doormagnets
